
BRIEFING NOTE: Update to Notice of Construction – Replacement of Watermain on Eglinton Avenue West

Issue/Background:

On September 1, 2009, you received a briefing note from me providing information about the upcoming replacement of the watermain along Eglinton Avenue West between Bathurst Street and Gilgorm Road, and between Avenue Road and Duplex Avenue. There have been significant changes to the construction dates indicated in that briefing.

Key Points:

Expected start and completion dates for Phase 1 of this work (between Bathurst Street and Gilgorm Road) have been updated. This work is now expected to take place from mid-October, 2009 to March 31, 2010.

All other details of construction, including expected start and completion dates for Phase 2 (from Avenue Road to Duplex Avenue) remain unchanged.

Our office will be issuing an updated construction notice to all municipal addresses between Old Park and Glen Cedar Roads and Castle Knock Road and Duncannon Drive, approximately 500m north and south of Eglinton Avenue West (see attached map). Notices will be delivered via Canada Post 'premium' unaddressed airmail. Updated notices will be issued to the area around Phase 2 at a later date.

Your offices will be notified if there are any further major changes to the construction schedule.
